1 Dummy Antenna	Each $ 2.10	Total $ 2.10	
2 Solar Cells	Each $147.75	Total $295.50	

10. Other Requirements

10.1 Propagation Survey

The bidder shall conduct such field strength or propagation surveys as he feels are required to guarantee reliable system operation. The contractor shall, as the time of final system checkout, demonstrate that the system accepts signals reliably from all boxes. Further, the contractor will, if the city so desires, take a portable box arrangement to city-selected sites and demonstrate that the system will reliably accept signals from any location at all within the area to be covered by the Fire Alarm/Motorist-Aid System.

As a result of the propagation survey, the bidder shall determine whether or not a repeater station will be required for that portion of the system which is being purchased under this contract. If so, the repeater station, designed to fully comply with NFPA 1221, must be included with this bid. The bidder must include complete details of the equipment offered, the proposed location, installation of the equipment and installation of the antennas.

If the repeater station will be required when the system is expanded for both fire and motorist aid, the recommended location must be included as part of this bid.

RE: Bid No. 863

Dear Mr. Bugher,

Thank you for including us on your bid list for this project. Although we are very interested in this type of system, we are not prepared to make a bid at this time.

You might be interested to know that our company has developed a more advanced system along these lines and it is in operation in selected locations. However, I feel it does not meet your requirements per the bid sheet.

We appreciate your interest in our organization and continued inclusion on your bid list for future projects. Please send any such proposals to our local office to facilitate timely handling.

Sincerely,

AMERICAN DISTRICT TELEGRAPH COMPANY, INC.

Memorandum

To Terry Coonan - Board of Public Safety Date October 27, 1978

From Thomas A. Manny - Traffic Engineer

Subject Radio Fire Alarm Bid

COPIES TO:
Purchasing
File

Please be advised that bids were received from Eagle Signal Corporation and Indiana Fire Prevention Company.

Total Cost

	Central Console	Price Per Box Based on 30	Master Box	Motorist Aid	TOTAL
Eagle Signal Corp.	$56,238	1940/53,200	$4,214	$3,503	$122,155
Indiana Fire Prev.Co.	$38,808	3037/91,110	$3,594	$3,217	$136,729

Eagle Signal is the low bidder on the system. Expanded to the full potential of the system of 500 boxes, an additional savings of $515,590.00 will be realized with the low bidder.

PM PM

Indiana Fire Prevention Corporation also took exception to:

A. Sec 5.7 - This exception converts the desk type console in the communications center to a stand alone operation requiring major modifications in the dispatch area.

B. Sec 6.1 - Elimination of illuminated door actuated panel - is in conflict to FHWA requirements for motorist aide systems , which would affect future Federal Funding for system expansion.

C. Sec 6.1 - may be in conflict with I.S.U. requirements; definitely conflicts with Fire Prevention School Safety Program.

D. Sec 6.4 - FHWA requirements on motorist aide require confirmation signal - failure to provide, leaves gap in system and eliminates future Federal aid.

E. Sec 8.1 - 5" pole standard pedestal pole and base currently used in our operation.

F. Sec 10.1 - Propogation survey - will we concur? No study was provided to document same, the differences upon installation could be very expensive.

Based on the previous exceptions and the fact that Eagle Signal Corporation's base bid is lower, we recommend approval of the Eagle bid.

APPROVED BY THE STATE BOARD OF ACCOUNTS FOR THE CITY OF FORT WAYNE 1965.
